

ST. ANDREW'S COLLEGE
Cambridge

Extra-Curricular Programme

Taking part in extra-curricular activities, is not only an opportunity to mix with other students with similar interests and have fun, it enables students to develop their self-confidence, improve their organisational skills and develop team working and leadership skills. Many universities are looking for well-rounded students with hobbies and interests that differ from their academic discipline and developing new skills can be useful for a student's personal statement and to discuss at interview.

SPORTS

Students have access to a wide range of sports activities at Hills Road and Kelsey Kerridge Sports Centre, both located close to the college.

On Friday afternoons, we offer Volleyball, Basketball, and Badminton at Kelsey Kerridge. Throughout the week, students can also take part in Table Tennis, Indoor Climbing, Squash, Tennis, Touch Rugby, Football, Basketball and many others. For swimming enthusiasts, Parkside Indoor Pool and the Jesus Green Lido (outdoor pool) are popular choices.

Many of our students play football and take part in the Cambridge University League. Some join local cricket teams or golf clubs, while others prefer to stay active by attending the local gym or joining fitness classes after school or on weekends.

Students can also take part in the Student Leader's Award. With such a wide range of sports and activities available, our staff are happy to support and guide students based on their individual interests.
